

Route to Biology Dept: On 104, take Exit 32 for Hwy 7/West St. Follow signs for Antigonish through 2 roundabouts, and then head straight through traffic light onto West St. Turn right into the University at the first intersection, and then right again to follow road around the athletics complex. Turn right at the football field, and then immediately left into the parking lot (free). Bruce Brown Hall is up the hill on the far side of the road. There is no sidewalk, so just walk along the road, passing the fenced-in soccer fields on your right, and then come in the side door of the building. My office is the first on the right from that entrance. The main entrance at the centre of the building leads to the main Biology office.

Route to the hotel: On 104, take Exit 32 for Hwy 7/West St. Follow signs for Antigonish through 2 roundabouts. Turn right at traffic light onto old Hwy. Turn left at first set of lights onto Church St. Follow Church St until it ends, and then turn right onto Main St. The hotel is ~1.5 blocks along Main, on left.
