

Student steps to accessing MyVirtualChild

- 1.) After signing in to MyDevelopmentLab, the student can click on MyVirtualChild from the left hand navigation menu:

- 2.) This will launch a new window, and the student will be instructed to create a child (or avatar) before joining a course. Click on "Create Child" for the first step:

- 3.) The will have to read and accept the End User Agreement, select their gender and their partner's gender, and then enter their Class ID, this refers to the MyVirtualChild class ID from your MyVirtualChild dashboard:

The student sees:

Register

Your Gender

Male Female

Your Partner's Gender
