19) What were the best aspects of this course and/or instructor?

~~This course was absolutely~~
Throughout my four years university, this course ~~was~~ has been one of ~~the~~ most outstanding & integral learning experiences ~~for me~~, ~~It is just a great status of a typical university course in the~~
The course itself was fun, engaging and applicable to say the least. Class discussions were informative, and ultimately allowed students to grow with respect to public speaking & voicing their opinion in front of a large ~~class~~ ^{group}. This class covered topics that are not only crucial for individuals of the HHCN program to learn, but are crucial for all university students and all individuals in general to learn. All in all, fantastic course with a professor that is absolutely outstanding.

20) Are there any aspects of this course or of the instruction that could be improved? If so, please explain.

None

the best
Angie is easily one of the best, if not ~~the best~~ professor I've had at SFX. Every class she is enthusiastic & ~~no~~ shows motivation in teaching the material. Furthermore, her passion toward what she teaches is inspirational to say the least. She makes class interesting, thought provoking and makes it easy to come up in the morning & attend on 8:15. So ~~happy~~ thankful that I had Angie as a professor because she made me realize that there are university professors out there that care just as much about their teaching methods & their students as they do their research.

N/A

Keep letting as many people into the class as you want! but if it does get to big maybe another classroom would work better?

Student feedback can help instructors shape/improve their teaching. Please provide specific examples for the following three (3) questions

19) What were the best aspects of this course and/or instructor?

Class discussions; Angie's enthusiasm.
The classroom was a welcoming environment for questions about anything.

20) Are there any aspects of this course or of the instruction that could be improved? If so, please explain.

The class was very full. If every student showed ~~up~~ up about 10 students had to sit in the aisle. I don't mind the class size but in future a classroom that can accomodate all the students.

21) Do you have any other comments about the course and/or the instructor?

Great Class. However I did at times, especially during our dodgeball debate, feel like Angie pushed her beliefs on the class as "right" and if you dissagreed you were "wrong".
Overall, the class was great.

Angie is passionate and clearly loves her students and what she teaches. Without a doubt, this was my favorite class. She knows how to involve students and how to get them interested in the topics. Her enthusiasm is contagious, and I really hope one day I can be half as inspiring as her. I feel that this course is extremely important, and the topics are relevant, crucial, and real world applicable.

20) Are there any aspects of this course or of the instruction that could be improved? If so, please explain.

None. There is literally no room for improvement when you're taught by the best.

21) Do you have any other comments about the course and/or the instructor?

While the class size was a little large, I believe that it is important for any student to take this class if they wish to. So I would keep the class size large 😊 I don't feel like we lost any ~~any~~ educational experience by having a larger class.

Perhaps have more Rants & Raves with less because in other classes we were required to do commentaries for 10 weeks, one a week and it became habit to get them done. I think with only 4 it is too easy to procrastinate or forget about deadlines.
