

Front Panel of GW Instek CRO

Breadboard and Connectors

A 47 k Ω Carbon Resistor

- Stripe scheme yellow-violet-orange-gold
- Numerically 47×10^3 with 5% tolerance

Using Jumper Wires

- The jumper wires follow the same colour scheme as the resistors!
- If you need to connect to something “2 holes” away use red; something 7 holes use violet.
- The channels count as “2 holes”.
- The holes are actually 0.1 inches apart.
