What were the best aspects of this course and/or instructor?

Comments
The illustration, demonstrations, and knowledge
Instructor encourages students to enjoy and be creative for the assignments and projects. Promoting thinking and not memorizing was a good thing. Instructor shows passion what he does, that's very important because when topic is complex, he makes things easy to understand.
engaging the class

Are there any aspects of this course or of the instruction that could be improved? If so, please explain.

Comments
I think the times could be late in the day. It is a very advanced class.
Content in class should not explained as it is in the material, it is missing the chance to learn additional information . Particularly for this novel course, Lectures should be in deep, more than the material given in advance. The material should be just in preparation to the class, and the professor should give lecture to advanced material or solve questions for the basic material if students have doubts in class.
outstanding

Do you have any other comments about the course and/or the instructor?

Comments
He is very smart.
No
id say he did everything including checking up on his students
