

Curriculum Vitæ

Evelise Bourlon

May 9, 2017

Evelise Bourlon

1332 Laggan Road Lab: (902) 867-4854
Laggan, Nova Scotia, Fax: (902) 867-2414
Canada B0K 1A0 Email: ebourlon@stfx.ca

Homepage: <http://people.stfx.ca/ebourlon>

Objectives

I am willing to take up responsibilities that will enable me to use my abilities to the fullest and in this process learn additional skills while working with an optimistic group.

Playground

Numerical methods for solving problems in Earth Sciences, time-series and image analysis, paleoclimate and climate dynamics and GIS applications.

Employment

- Present position: Large-scale emmission data analyst at FluxLab (Antigonish, NS).
- 2010-2016: Graduate Program Coordinator at Saint Francis Xavier University (Antigonish, NS).
- 2009-2010: Environmental GIS specialist at SeisMap Consulting (Frankville, NS) and FluxLab (Antigonish, NS).
- 2004-2009: Assistant professor at Saint Francis Xavier University (Antigonish, NS).
- 2005-2009: Associate researcher at Environmental Sciences Research Centre (Antigonish, NS) and GEOTOP-UQAM-McGill (Montreal, QC).
- 2007-2009: GIS/Geophysics consultant for SeisMap Consulting.
- 2005-2008: Adjunct professor at Université du Québec à Montréal (QC).
- 2003: Lecturer at Saint Francis Xavier University (Antigonish, NS).
- 1998-2003: Teaching assistant at Université du Québec à Montréal (QC).

Education

- Post-doctoral researcher in paleoclimate studies at Saint Francis Xavier University, Department of Earth Sciences, 2004.(Director: Dr. Hugo Beltrami)
- Ph.D. in Geophysics, Département des Sciences de la Terre et de l'Atmosphère, Université du Québec à Montréal, Canada, 2004. Dissertation: Analysis of gravity and magnetic fields in the Canadian Shield using standard and wavelet-based methods. (Director: Dr. Jean-Claude Mareschal)

- D.E.A. in Marine Geosciences, IFREMER, Université de Bretagne Occidentale, Brest, France, 1996. Dissertation 1: Plates border in the area of Gorringe Bank, Iberian Atlantic Margin: Structural investigation of seismic data. Dissertation 2: Mathematica source code for focal seismic mechanisms studies. (Directors: Dr. Bernard Le Gall, Alain Piqué & Philippe Pézard)
- Licence and Maîtrise in Pure and Applied Geophysics and Geochemistry, Institut de Physique du Globe de Strasbourg, Louis Pasteur University, France, 1994-1995. Dissertation: Electrical conductivity in carbonated rocks and oceanic dykes. (Director: Dr. André Revil)
- D.E.U.G. in Sciences of Structures and Matter, first year major in Pure Mathematics and Physics, second year major in Physics of the Earth, Louis Pasteur University, Strasbourg, France, 1993.

Professional experience

Consulting - GIS/Geophysics Specialist

Project management

Elaboration of proposal, report, grant application, in French and english

Graphical user interface implementation (browsable maps, GUI software)

Teaching at StFX

- ESCI575: Special topics in Geophysics, 2003-2008.
- ESCI571: Geographical Information Systems (Advanced level), winter 2007.
- ESCI475: Geophysics, 2004-2009.
- ESCI472: Ocean-Atmosphere Interactions, 2004-2006.
- ESCI471: Geographical Information Systems, 2007-2009.
- ESCI272: Global Change and the Climate System, 2004-2006.
- ESCI271: Environmental Earth Science, 2004-2009.
- ESCI246: Quantitative Methods in Earth Science, 2004-2009.

Teaching assistant at UQAM

- SCT5510: Plates Tectonics, 1998-2002.
- SCT2610: Applied Geophysics, 1998.

Scientific animation

- Organizer of Geosciences activities for kids at many local events and schools in Antigonish, NS.

- GEOTOP annual student meeting organization, 2000-2002.
- Organizer of weekly student discussion groups (“le Cirque du Geotop”) from 1998 to 2000.
- Guest lecture coordinator at StFX, Earth Sciences, 2004-2009.
- I have presided over a session at the American Geophysical Union - Canadian Geophysical Union Joint Meeting, Montreal, May 2004, Crustal Structure and Tectonics: Geophysical Observations and Models.

Evaluation Activities

I have been member of Master thesis committee for:

- Dana Nițoiu, deforestation effect on ground surface temperature,
- Lan Ying Zhao, snow cover effect on ground surface temperature,
- Krista Kavanaugh, soil nitrous oxide dynamics and harvesting,
- Bruce Stevens, ground heat flux models,
- Nick Nickerson, soil carbon dioxide emissions and gas transport physics.

I have been member of the committee on nomination to the American Geophysical Union Outstanding Student Paper Award in 2004, and to the Student Research Day at StFX from 2005 to 2008.

Computer skills

- Languages & Software: tcsh, bash, Fortran, Matlab, R, Shiny R, GMT, Latex, html/ccs, Web API, NIH Image, Envie, Geosoft, Divesco WinPics, ER-Mapper, ArcGIS, MapInfo, QGIS and standard Office utilities.
- I received training in parallel computing and videoconferencing coordination on the AceNet network.
- Platforms: Unix, Linux, Dos, Windows, Mac OS X.
- Others: Maintenance of Windows and Linux systems.

Research Contributions

Papers

- MacDougall A.H., Beltrami H., González-Rouco J.F., Bourlon E., Stevens B., Kellman L. (2010). Comparison of observed and general circulation model derived continental subsurface heat flux in the Northern Hemisphere, *Journal of Geophysical Research*, 115 (D12): D12109 DOI: 10.1029/2009JD013170. Chosen as AGU Editor’s Highlight.

Thesis

- Bourlon E. (2004). Analysis of gravity and magnetic fields in the Canadian Shield using standard and wavelet-based methods, PhD Thesis, D-096, Université du Québec à Montréal, 186PP, ISBN: 0612908356
- Bourlon E., Piqué A., Legall B. (1996) La limite Afrique-Europe dans la région du Banc de Gorringe: Apport de l'étude structurale des données de sismique réflexion profonde IAM (Iberian Atlantic Margin), Laboratoire de Géodynamique de Brest & Département de Géosciences Marines de l'IFREMER, France, rapport de DEA, 50pp.
- Bourlon E., Revil A. (1995). Etude de la conductivité électrique de roches carbonatées saturées, Laboratoire de physique des Roches de Strasbourg, rapport de Maîtrise, France, 18pp.

Popularization

Since its creation in 2002, I am collaborating in the writing of chronicles for a website initially for french-speaking 8 to 12-year-old children about volcanology on Earth and other planets (www.vickivolka.uqam.ca, ISSN 1705-1525).

Other

- Je parle français - I speak English - Ich spreche Deutsch.
- I received St. Francis Xavier University Annual Research, Publication, Teaching Award (URPTA) in 2005 and 2006.
- I am French and Canadian citizen.
